

Work Experience	
Software Developer at Department of BEIS	Dec 2017 - Present
Working for Office for Product Safety & Standards, helping deliver and develop systems in an agile and scrum orientated way. I am working on the creation of an EU Exit based website called Market Surveillance and Product Safety Digital Service as well as the Primary Authority Register. I am taking the services through Alpha to Live by completing important journeys.	
Maths tutor at Yipiyap	Dec 2016 - August 2017
Working with GCSE students for 4 schools in the Manchester and Derbyshire area, ranging from the academic high achievers to the struggling students, helping them reach the grades they deserved by assisting them on extra learning, exam preparation and one-to-one tutoring. I did a range of individual one-to-ones, classes and also assisted in running classroom sessions in school time.	
Training volunteer at VSO ICS	Sep 2016 - Dec 2016
Working on the media, digital and training teams. My primary role was to organise and run training sessions with nearby schools in Stung Treng, Cambodia. I also worked on documenting the work we did and sharing it through facebook and youtube.
